Feedback and contact information

We're always looking to improve the accessibility of this website. If you find any problems please contact us:

- email: **eea@industriebitossi.com**

We'll consider your request and get back to you in 30 days. In case of an unsatisfactory response or failure to respond within thirty days of the notification or request, the data subject may submit a report to AgID via certified email (PEC) at the following address: protocollo@pec.agid.gov.it

Technical information about this website's accessibility

Compliance status

This website is **partially compliant** with the EN 301549 "Accessibility requirements for ICT products and services", the European Standard and Web Content Accessibility Guidelines version 2.2 AA standard.

Non-compliance with the accessibility regulations

- C.9.1.1.1 – Non-text Content: Some images, icons, or other non-text content do not have a text description.
- C.9.1.2.3 – Audio Description or Media Alternative (Prerecorded): Some recorded videos have no text alternative or audio description.
- C.9.1.3.1 – Info and Relationships: In some cases, the structure or meaning of

content is shown only visually and is not coded so assistive tools can read it.
- C.9.1.4.1 – Use of Color: In some cases, color alone is used to give meaning or show a difference.
- C.9.1.4.3 – Contrast (Minimum): Text and images of text do not always have enough contrast, except for items like logos.
- C.9.1.4.4 – Resize text: Some text cannot be made twice as big without losing content or features (captions and text images excluded).
- C.9.1.4.10 – Reflow: Content that does not need a 2D layout does not reflow when the screen is resized.
- C.9.2.1.1 – Keyboard: Some features cannot be used with a keyboard.
- C.9.2.2.2 – Pause, Stop, Hide: There is no way to pause, stop, or hide moving, blinking, scrolling, or auto-updating content that runs over 5 seconds next to other content.
- C.9.2.4.1 – Bypass Blocks: There is no way to skip blocks of content that repeat on many screens.
- C.9.2.4.2 – Page Titled: Some screens have no title that explains their topic or purpose.
- C.9.2.4.3 – Focus Order: When users tab through content, the focus order does not match the meaning or how things work.
- C.9.2.4.4 – Link Purpose (In Context): The purpose of some links or controls is not clear from their text or context.
- C.9.2.4.6 – Headings and Labels: Some headings or labels do not clearly describe the content or function.
- C.9.2.4.7 – Focus Visible: Some interactive elements have no visible focus indicator when using the keyboard.
- C.9.3.3.2 – Labels or Instructions: There are no labels or instructions when the user must enter data.
- C.9.4.1.2 – Name, Role, Value: Some components do not pass their name, role, state, or value to assistive tools, or do not notify them of changes.
- C.10.1.3.1 – Info and Relationships: In some documents and some cases, the structure or meaning of content is shown only visually and is not coded so assistive tools can read it.
- C.10.2.4.2 – Page Titled: In some documents, some screens have no title that explains their topic or purpose

You can configure the accessibility widget (overlay) to provide a partially or fully accessible experience with respect to these nonconformities.

For the solution to work correctly, the widget must be fully loaded and the adaptations activated. An incorrect configuration of the widget may reduce accessibility.
